

## **Series ZX-Ø-K**

Short cylinder,  
piston-Ø 25 to 63 mm  
Design and function

Double acting rodless cylinder with adjustable cushion and permanent magnet. The non-rotating piston guides the moving mass. The design of the K series significantly reduces the overall length of the cylinder (by as much as 30 %). The sensors can be installed directly into the grooves of the aluminum profile. Cylinders of this series are available in explosion proof design in accordance with 94/9/EG (ATEX). For further details see chapter 12 of this catalogue.
